To Who It May Concern,

Please accept this letter as a recommendation for Jana Stoyanova. Jana assisted me in the makeup FX department for the film MAN WITH THE SCREAMING BRAIN. The sci-fi film produced by Jeff Franklin, starring Bruce Campbell, utilized several Makeup Effects and on set gags.

I found Jana's versatility, both creatively and technically, to be asset to the department. Her strength in fabrication, finishing work, prosthetic application and on set gags played a valuable part in completing the film. As a team member she was supportive and as an individual she took the initiative when necessary to get the job done.

I would most definitely welcome her back for another project should the occasion arise.

Thank you,

Melanie Tooker
